

Hand Gluing Extrusion System

HAECO

Stainless steel, industrial hand valve

Wide array of applicators available

FEATURES:

- ◆ Simplicity
- ◆ Clean
- ◆ Accurate adhesive application
- ◆ Can pump directly from pails, drums, and totes
- ◆ Large reservoir capabilities
- ◆ Individual pressure regulation available
- ◆ Industrial construction and materials
- ◆ Installs in minutes
- ◆ Precise adhesive control
- ◆ High flow capabilities
- ◆ Adhesive supply is available in 3 gal, 5 gal, or Double Diaphragm Pump

The HAECO Hand Gluing Extrusion System replaces messy, inefficient applications such as: Squirt bottles, paint rollers, and paint brushes. It is available in three different packages: a pressure tank, pressure pot, or double diaphragm pump.
